

# Graduate Certificate in Non-Medical Catheter Laboratory Practice\*

(Subject to Validation by London Southbank University and Accreditation by the British Cardiovascular Society)

## Announcing a new Graduate Course in Non-Medical Catheter Laboratory Practice

This new University Graduate course is aimed at cardiac physiologists, radiographers, and nurses who work in the cardiac catheter laboratory and wish to extend their skills to work across all three disciplines. The course is based at London South Bank University and has been developed in partnership with the British Heart Foundation, and British Cardiovascular Society.

The course will offer flexible approaches to learning including three 1-week residential schools at the University, electronic and distance learning modules, and supervised training at local designated training centres. After a 6 - 9 month period, if successful, students will be eligible for a Graduate Certificate in Non-Medical Catheter Laboratory Practice.

The British Heart Foundation will be funding up to 12 places on the course, which will include travel and subsistence allowance for the residential school sessions.

The course is open to catheter laboratory staff with a minimum of six months' catheter laboratory experience and intermediate life support training and is due to start **2<sup>nd</sup> February 2009**.

Applications for the course should include a curriculum vitae, statement of career intentions, and letter of support from your local Head of Department or Clinical Director. **Applications should be submitted to:**

Allyson Arnold  
British Heart Foundation  
14 Fitzhardinge Street  
London, W1H 6DH

**by November 14<sup>th</sup> 2008**

Applicants will be informed of the outcome by 1<sup>st</sup> December 2008

For more details about the course, please visit our website [bhf.org.uk/cathlabcourse](http://bhf.org.uk/cathlabcourse) or contact Allyson Arnold on 0207 487 9447 or email [arnolda@bhf.org.uk](mailto:arnolda@bhf.org.uk).
