

# Graduate Certificate in Adult Cardiac Catheter Laboratory Practice

(Subject to Accreditation by the British Cardiovascular Society)

## Announcing a new Graduate Course in Adult Catheter Laboratory Practice

This new University Graduate course is aimed at cardiac physiologists, radiographers, and nurses who work in the cardiac catheter laboratory and wish to extend their skills to work across all three disciplines. The course is based at London South Bank University and has been developed in partnership with the British Heart Foundation, and British Cardiovascular Society.

The course will offer flexible approaches to learning including three 1-week residential schools at the University, electronic and distance learning modules, and supervised training at local designated training centres. After a 6 - 9 month period, if successful, students will be eligible for a Graduate Certificate in Adult Angiography Practice.

The British Heart Foundation will be funding up to 25 places on the course, which will include travel and subsistence allowance for the residential school sessions.

The course is open to catheter laboratory staff with a minimum of six months' catheter laboratory experience and intermediate life support training and is due to start **12th October 2009**.

Applications for the course should include a curriculum vitae, statement of career intentions, and letter of support from your local Head of Department or Clinical Director. **Applications should be submitted to:**

Amanda Kenn  
British Heart Foundation  
Greater London House  
180 Hampstead Road  
London, NW1 7AW

**by May 22<sup>nd</sup> 2009**

Applicants will be informed of the outcome by 15<sup>th</sup> June 2009
