ICSI-UK / 2026 / INVITATION

RE: INVITATION

Introduction to Cardiac Structural Interventions (ICSI-UK 2026)
Friday, 13th November 2026 — East Wood Hotel, Nottingham

We are delighted to invite you to the fifth successive year of the **Introduction to Cardiac Structural Interventions (ICSI-UK: 2026)**, taking place on **Friday, 13th November 2026** at the **East Wood Hotel, Nottingham**. Over the past five years, this event has grown into one of the most respected educational forums in structural cardiology in the United Kingdom.

SIMULATOR STATIONS

Our most recent conference attracted over 100 participants and was widely praised for its high-quality scientific content and practical hands-on simulator sessions covering **Left Atrial Appendage Occlusion (LAAO)**, **Trans-septal Puncture**, **Percutaneous Mitral Valve Repair**, and **Transcatheter Aortic Valve Implantation (TAVI)**. Delegate feedback consistently highlights the unique blend of evidence-based learning and procedural skill development that defines ICSI-UK.

This course is designed for:

Interventional Consultants (Early Career)

Cardiology Trainees

Interventional Trainees

Allied Health Professionals

Delegates can expect a comprehensive and immersive learning experience:

- ✓ **In-depth education** — evidence-based lectures covering guidelines, procedural techniques, and emerging innovations across all major structural interventions.
- ✓ **Hands-on simulation** — dedicated simulator stations with expert guidance for TAVI, Mitral TEER, Trans-septal Puncture, LAAO, PFO closure, and Tricuspid interventions.
- ✓ **Case-based learning** — recorded cases and imaging-led discussions to build confidence in managing anatomical variants and procedural challenges.
- ✓ **Expert faculty** — leading interventional cardiologists from across the UK sharing practical insights and clinical wisdom.

We warmly invite you to join us as a delegate at ICSI-UK 2026. Structural heart intervention is one of the fastest-evolving fields in cardiology, and a firm grounding in it is now essential for safe, effective patient care. The course combines evidence-based lectures, case discussions, and hands-on simulator sessions covering TAVI, Mitral TEER, LAAO, trans-septal puncture, PFO closure, and tricuspid interventions.

The programme takes you from pre-procedural planning and imaging through the guidelines, evidence, and practical steps of each intervention, taught by leading UK interventional cardiologists. Registration is free, with 6 RCP-approved CPD points. We look forward to welcoming you to Nottingham on 13th November 2026.

Yours sincerely,

Ashan Gunarathne

Consultant Interventional Cardiologist
Honorary Associate Professor of Cardiology
University Hospitals Nottingham NHS Trust
Course Director, ICSI-UK 2026

Introduction to Cardiac Structural Interventions

13th November 2026

PROGRAM

08:30		Welcome and Registration
09:00 – 10:00		Pre-procedure planning, Imaging & Interventions: <i>Panel: Bushra Raina, Sushma Rekhraj, Akki Uddin, Andrew Cook</i> 09:00 Useful Cardiac Anatomy for structural Interventions 09:15 Cardiac imaging for structural Interventions (TOE/ICE) 09:30 Pre procedural planning using CT 09:45 How to obtain safer and effective vascular access and closer techniques 10:00 How to perform a safer and effective transeptal puncture
10:15 – 11:00		Trans Aortic Valve Implantations <i>Panel: Jan Kovac, Kamran Baig, Dan Blackman</i> 10:15 Past, Present & Future 10:30 Guidelines and Evidence 10:45 Basic Procedural steps 11:00 Case based discussion (Recorded case)
11:00 – 11:30		Tea and refreshments – hands on experience with simulators
11:30 – 12:00		Left Atrial Appendage Occlusion <i>Panel: Ashan Gunarathne / Kamran Baig / Will Smith</i> 11:30 Guidelines and Evidence 11:45 Basic Procedural steps 12:00 Case based discussion (Recorded case)
12:30 – 13:00		Percutaneous Mitral Valve Interventions <i>Panel: Mamta Buch, Will Smith, Michael Mullen</i> 12:30 Guidelines and Evidence 12:45 Basic Procedural steps 13:00 Case based discussion (Recorded case)
13:00 – 14:00		Lunch
14:30 – 15:00		Percutaneous Tricuspid Valve Interventions <i>Panel: Sam Dawkins, Mamta Buch, Will Smith, Michael Mullen</i> 14:30 Guidelines and Evidence 14:45 Basic Procedural steps 15:00 Case based discussion (Recorded case)
15:30 – 16:00		Other structural Interventions: <i>Panel: Andrew Vanesis / Will Smith / Andrew Sharp / Amar Mistry</i> 15:30 PFO closure 15:45 Coronary Sinus Reducer 16:00 Renal Denervation
16:00 – 17:00		Hands on Simulator experience in groups (TAVI / Mitral TEER / TSP / PFO / Tricuspid)
